
Work Experience

Senior Analyst - ARKVEGA PARTNERS, New Delhi

2022-2025

A sector-agnostic boutique investment bank specializing in fundraising, financial advisory and M&A

Roles and responsibilities:

- **Reduced manual reporting time by ~70%** by building an **automated MIS and performance dashboard** for a 25+ asset hospitality startup backed by Blume Ventures, enabling granular tracking of occupancy, revenue, and unit economics.
- **Led a \$15M hospital fundraising mandate** end-to-end - built financial models comparing greenfield vs. acquisition pathways, with acquisition scenario showing 2× revenue potential at lower capex; used as the core thesis in investor materials
- Owned **end-to-end acquisition sourcing for a leading insurance aggregator's** entry into AI-led claims - built target universe of 8 AI insurtech startups, led founder conversations, and advanced 1 target to final-stage acquisition discussions.
- Led a **\$100M cross-border M&A deal** to final stages by **leading due diligence** on a Canadian mining target, **enabling international expansion** and extending the mandate into fundraising.
- **Analyzed a \$12M+ ARR foreign M&A target** in the Animation industry through comprehensive due diligence, identifying **~20% revenue expansion potential** via deal structuring (including new share issuance) and business synergies.
- **Developed a portfolio analysis tool, reducing tracking effort by ~50%** through automated weekly price updates and flagging of underperforming stocks

Key Achievements:

- **Promoted to Senior Analyst** within 2 years for strong performance; entrusted with ownership of multiple concurrent client engagements across fundraising, M&A, and strategic advisory mandates.
- **Led expansion** into two new verticals - **Portfolio Management Services** and **lending/NBFC partnerships** - by identifying relevant startups and connecting them with pre-identified investors, resulting in 2 late-stage investor conversations within 2 months
- **Worked directly with founders defining scope and deliverables** across multiple mandates leading end-to-end project execution..
